Get ready to party as DJ duo promises a treat for all

BEFORE they move to the US to try and make it as DJs in Los Angeles, the Stafford Brothers will be embarking on a national tour, and Grafton is one of their stops.

The night, at the South Grafton Ex-Servicemen's Club, is set to be a treat for all who attend.

Brothers Chris and Matt, who are successful DJs and have also had their own reality show on Fox8, said they had applied for US visas and hoped to rent an

apartment in Beverly Hills by the end of March.

Chris said that going overseas was the natural next step for them after performing at Summadayze and joining the Future Music Festival bill.

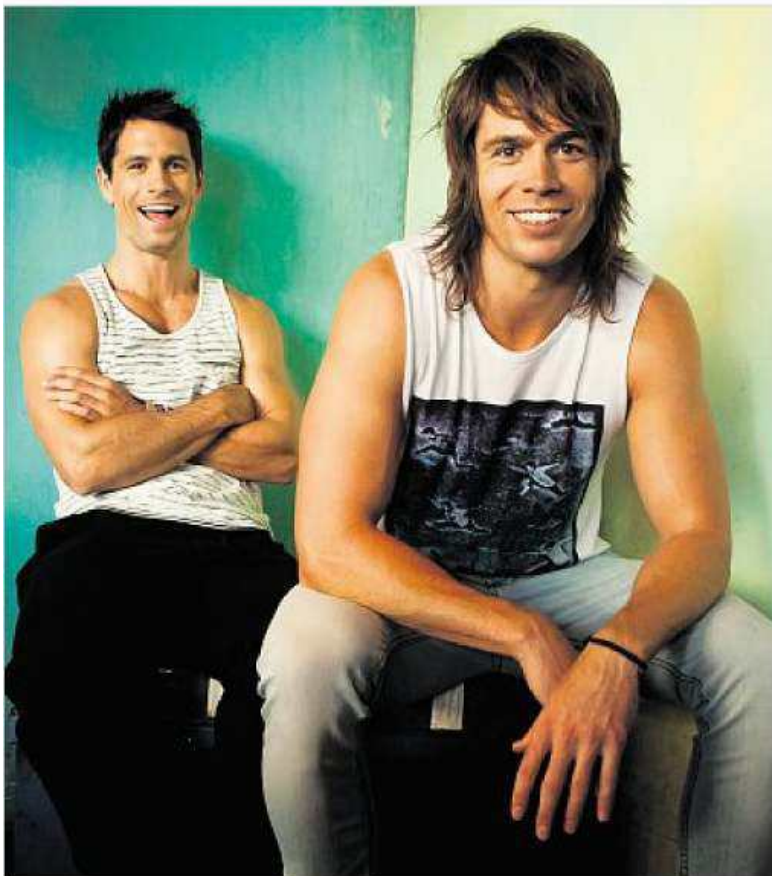

"We played in Miami, New York, everywhere . . . with people saying, 'Come back and play next month'," he said.

Matt said the duo was working on some original hits, and hoped to work

with top producers such as Dr Dre during their stint in Los Angeles.

Chris Stafford:

We played in Miami, New York, everywhere and got a great response.

STARS: Aussie DJs The Stafford Brothers are into the second series of their TV show.
